

ASTI Ammonia Safety Vest Kit Order Form

The fully equipped ASTI Vest includes the following items:

- ASTI high visibility vest with breathable fabric
- Lapel mounted personal ammonia detector 0-1500PPM, programmed ready for use
- Software, charger, data connection cables for detector
- Negative pressure, full face compact mask with replaceable K2 filter
- Bright white CREE LED right angle flashlight with battery
- UVEX Ultravision anti fog goggles with forehead seal
- Elbow length lined chemical safety gloves
- Chemical break open eyewash
- Anti-fogging agent to use on mask & goggles
- ASTI 30 Minute Plan (*A3 folded*) plus 5 laminated pocket notices, including when to wear your ASTI vest
- One complimentary registration at the next ASTI safety day will be provided with the purchase of each fully equipped vest. Alternatively a price for specific training on the ASTI vest can be provided upon request.
- **Price for complete kit \$1950 + GST**
